At the same time, the perception that bureaucratisation - or too much of it - is negative and even, anti-liberal, influences the evolution of policing practices in the global North. Police reform in the Netherlands, for instance, has over the past years sought to minimize the distance between the public and the police by debureaucratising policing practices.

Police Practices. Good police practices, thorough training, carefully crafted policies and appropriate allocation of resources in law enforcement can ensure public safety and prevent abuses in encounters between police officers and citizens. Unfortunately, across the nation patterns of racial profiling, the selective enforcement of laws against people of color and disturbing stop-and-frisk policies have resulted in a disproportionate effect on certain communities, with people of color coming ...

More recently, Carl Klockars and his colleagues have offered an overarching perspective that focusses on police integrity, defined as "the normative inclination among police to resist temptations to abuse the rights and privileges of their occupation" (Klockars et al., 2006). This integrity framework can be found throughout this special issue.
